

reexamining **LGBT** healthcare

A cultural competence curriculum toolkit designed for healthcare providers and employees, **Reexamining LGBT Healthcare** provides simple, clear steps for improving services to lesbian, gay, bisexual, and transgender patients. The toolkit can be used out-of-the-box or customized for your institution's specific needs. The largest municipal hospital system in the country—the New York City Health and Hospital Corporation—uses this curriculum to train every one of their 38,000 employees.

**The LGBT cultural competence curriculum includes:**

- A 10-minute video, "To Treat Me, You Have to Know Who I Am"
- A comprehensive manual, provided on CD
- PowerPoint slides for both a 15-minute and a 60-minute staff training

The training was developed by the nonprofit National LGBT Cancer Network, which provides education, training and advocacy to both the LGBT community and healthcare providers. Revenue from the sale of the curriculum helps support the Network's mission.
